

## Our Commitment to Helping Our Community

January 12, 2018

**SYLMAR, Calif. (Jan. 12, 2018)** – Following the tragic wildfires that devastated our community last month, the Sunshine Canyon Landfill team stood ready to support with response, recovery and rebuilding efforts. With the recent torrential rains and ensuing mudslides that have impacted our neighbors this week, we remain committed to helping in any way we can. We are fortunate to serve a community with such a strong, determined and resolute foundation, and our thoughts are with all those affected.
