

Initial 2018 Gas Well Project Nearing Completion

May 18, 2018

SYLMAR, Calif. (May 18, 2018) – Since the beginning of 2018, the Sunshine Canyon Landfill team has continued installation of landfill gas well infrastructure, as we work to expand and optimize our landfill gas system. So far, 49 of the 52 planned gas wells have been installed. The remaining three will be installed by June 1. We will keep you updated as we make further progress on this project.
