

Thank You to Local Firefighters

June 22, 2018

SYLMAR, Calif. (June 22, 2018) – Yesterday afternoon, local firefighters responded to a small brush fire that ignited on the Sunshine Canyon Landfill property outside of the Landfill's disposal footprint. When the Landfill team realized a fire had sparked, we immediately contacted emergency services. Firefighters from the City of Los Angeles and the County were on site within minutes and established a United Command. Utilizing on-site help pads and fire hydrants the Landfill installed years ago, firefighters extinguished the fire within 90 minutes. During the emergency, the Landfill team suspended landfill and disposal operations.

The Sunshine Canyon Landfill team sends a resounding THANK YOU to the local firefighters for their speedy and professional response. We appreciate our long-standing, close working relationship with you and for all you do for our community!
