

Sunshine Canyon Landfill Supporting Local Restaurants with Employee Meal Program

April 29, 2020

SYLMAR, Calif. (Apr. 29, 2020) – Sunshine Canyon Landfill is doing its part to support local businesses during these difficult times.

For the past several weeks, the Landfill has been providing meals for employees. Meals are being sourced from local restaurants and small business customers throughout the community.

“We are using local restaurants to provide our team with breakfast or lunch on Tuesdays,” said Chris Coyle, general manager at Sunshine Canyon Landfill. “On Thursdays, we send every employee home with a family dinner pack. It’s a way of showing our appreciation to our employees and to local businesses in our community.”

Coyle said Sunshine Canyon has spent nearly \$20,000 with local restaurants in recent weeks, including Rooster Truck, Stonefire Grill, Rattlers BBQ and La Cocina, among others.

“We’re part of this community and, in these difficult times, we’re proud to do our part to support our customers and local businesses,” said Coyle. “Our employees enjoy the meals and they take pride in doing their part to support their neighbors.”
